Facilities

After many years of moving in and out of temporary premises and the construction of new buildings, the College has now settled into five main campuses, all located in the Inner City.

Cese Loma Campus, at 160 Kendal Avenue, opened in the fall of 1973. It houses most of the construction technology programs and has been specially designed so students can study its construction. Allied Health Auxiliaries, Jewellery Arts, and Ceramics programs are also located at this campus.

St. Jemas Campus is located on the north side of King Street between Jarvis and Sherbourne. The historical building dates back to 1874, when the first segment was built by Christie-Brown Bakery Company. When the College took it over in 1971, the building was completely gutted inside, and rebuilt to modern specifications. The attractive exterior has been completely restored. It now houses programs in Electronics, Business, Graphic Arts, Nursing and Dance.

Kansington Campus, at 21 Nassau Street is located in the heart of one of Toronto's most interesting ethnic areas. The famous Kensington outdoor market is just steps away. Kensington Campus has programs in Food and Fashion Technology and Community Services.

College Campus on the south side of College Street west of Bathurst, is a short walk from Kensington. It houses the Language Training Centre and the Industrial Training Division.

Nightingale Campus is located at 2 Murray Street, just west of University Avenue on Elm Street. All post-diploma Nursing and Community Services programs are conducted there.

In addition to these five main campuses the College has a Theatre Arts building at 530 King Street East, a Driver Training facility at Polson Pier.

Courses and Programs

Full-time The main purpose of all full-time programs at the College is to provide students with a combination of marketable skills, education and realistic expectations that will prepare them for a highly-competitive job market.

Advisory boards consisting of college staff, senior students or graduates, and representatives from business and industry meet at least twice a year. Their input helps keep programs relevant and allows the College to adapt its programs to changing needs.

Full-time students at the College fall into three categories: those enrolled in two and three-year programs that require high-school graduation; those taking "short" programs of three weeks to one year, usually requiring Grade 10, and apprentices involved in trades training ..men and women required to take a prescribed number of weeks classroom training each year as part of their apprenticeship.

While the College does not publish a traditional full-time calendar, details of full-time programs may be obtained from the Information Services Department by calling 967-1212 extension 591/2/3 or 4.

Many full-time students are drawn to the College by two- and three-year programs unique to George Brown College.

Others come to the College to take programs in which six semesters' work is studied in two years. These programs would normally take three years to complete. But a 45-week academic year allows students to graduate one year earlier than usual.

"Three-in-two" Programs

- Electronic Technology
- Electrical Technology
- Instrumentation Technology
- Survey Technology

Information and application forms for two- and three-year programs are available at high school guidance offices, or directly from the College.

Exceptions to the usual grade 12 entrance requirement are sometimes made for mature students (over 19) who show ability to succeed. College preparatory programs are also available for adults who wish to upgrade their academic qualifications for admission to college programs.

Short Programs Application for Manpower, skill-training programs — three weeks to 52 weeks long — must be made through the applicant's local Canada Manpower office. Some programs have a limited number of "open seats" for fee-paying students, but availability varies from program to program.

Apprenticeship Application for apprenticeship is made through the Industrial Training Branch of the Ministry of Colleges and Universities, 558 Yonge Street, Toronto, Ontario M4Y 1Y9. Apprentice must have a sponsoring employer.

Part-time In addition to full-time programs, the College offers a variety of career-related and general-interest, part-time courses. All the part-time courses listed in this calendar are taught on College premises. Most are held in the evening, one or two nights a week.

There are three major start periods: fall, winter (after Christmas), and spring. A limited number of courses are also held during the summer.

Industrial Training Division The College also has an Industrial Training division which works with business and industry to develop customized employee training programs.

Employer-Sponsored Training Employer Sponsored Training is the Ontario Government's response to the need for highly flexible training programs to meet the specific skilled labor shortages. Under the new training initiative, a Community Industrial Training Committee, representing both industry and labour, has been established for the City of Toronto to identify current and threatened local shortages of workers in highly skilled industrial trades. The Committee will also examine alternative training methods for meeting these shortages. George Brown College has responsibility for liaison between the Committee and the Ministry of Education. Training of individuals, when necessary, will be done primarily in an industrial or business setting.

Conference/Seminar Unit The Conference/Seminar Unit provides up-to-date training workshops to managers, professionals and support staff from business, industry, education, health and government. Workshop leaders are recognized practitioners in their field and provide participants with valuable hands-on learning experiences. For more information on 1980/81 programs please call the Conference Centre office at 967-1212 ext. 700.

This course combines mini-lectures with an informal writers' workshop. If you have a strong urge to break into print and you feel you have the necessary talent, this course will gratify that urge and groom that talent.
This course does not guarantee a professional career; it will help you, however, in avoiding the prolonged trial and error in working on your own. It will take you, step by step, from recognizing the marketable "story idea" to submitting a professional-looking manuscript to the most likely buyer. This writers' workshop will be conducted by a veteran writer and former editor of the Globe and Mail.

Registration

George Brown makes it easy for you to register by offering two methods of registration. Choose the method most convenient to you, and register as soon as possible because course enrollment is limited and our policy is to accept registrations on a "first come first served" basis.

Mail-In

Save time by using the attached mail-in registration-application form. Complete the form with your personal information (we keep it confidential) and the course information as shown. Be sure to include full payment for tuition and materials fees by cash, money order or cheque.
Registrations will not be accepted without full payment.
Mail the completed registration-application and payment to:

The George Brown College of Applied Arts
& Technology
P.O. Box 1015, Station 'B'
Toronto, Ontario
M5T 2T9

Note: The name of the campus where the course will be held must appear on both the registration form and your envelope. Mail-in registrations must be received at least two weeks before the course begins.

Walk-in

Are you right around the corner from the campus where your course will be conducted? Then personal registration could be the most convenient for you. Simply select your course(s) and go to the campus location(s) where it/they will be held. Be sure you have your social insurance number with you. Each campus has its **own registration hours** as indicated on the map. Full payment by cash, money order, cheque or VISA/Chargex will be accepted. The college will not invoice third parties or defer payment of fees for students who are receiving financial aid or tuition reimbursement, or for any other reason. Payment is due in full at the time of registration.

Confirmation of Registration

Walk-in registrants will receive confirmation of registration at the time of registration and fee payment.

Mail-in registrants will not receive notification of acceptance but should proceed to the campus location where the course is to be held on the start date indicated. If your mail-in registration-application **cannot** be accepted, you will be notified by mail or telephone.

Room Location

All registered students will find the room locations of their course(s) posted in the main lobby of the campus where the course(s) is to be held on the first scheduled class night. For assistance in locating the room please go to the Campus Admissions or Campus Manager's Office.

How to Reach Us

967-1212

Every department at George Brown is connected to this one number. Call us and ask for the department or service you need.

General Information

Course Cancellation/Changes

George Brown College reserves the right to cancel or suspend courses, combine classes, change instructors or limit enrolment.

Course cancellation will take place only if registration/enrolment falls below the required minimum. Every effort will be made to notify students by phone at the number(s) provided on the registration-application form.

A full refund including the $5.00 registration fee, will be made if a course is cancelled. Please allow four weeks for processing and mail delivery.

Fees

Fees must be paid in full at the time of registration. Payment may be in the form of cash, cheque or money order made payable to: George Brown College. Walk-in registrants have the additional option of VISA/Chargex payment. Post-dated cheques cannot be accepted.

Parking

All the George Brown Campus locations are in the heart of downtown Toronto and parking at or nearby each campus may be difficult. The Toronto Transit System provides excellent service to each campus and we encourage you to take TTC instead of driving. Call TTC information for the most direct route from your home or office to any of our campuses.

Transfers

Course transfer or change requests will be accepted only if made before the third scheduled class date and if space is available. Requests for transfer or change must be made in person or in writing and must be accompanied by the registration receipt "pink slip".

Transfers will be considered as a withdrawal from the first course and a registration in the second. The $5.00 registration fee from the first course is forfeited and full fees will apply to the second course chosen.

Withdrawal and Refund Policy

Requests for refund or course withdrawal must be made in person or in writing at the Campus Admissions Office before the third scheduled class date. You must present your registration receipt "pink slip" before any refund will be made. Non-attendance at classes does not constitute an automatic notice of withdrawal.

Fees will be refunded except for the $5.00 registration fee and a charge of $5.00 per scheduled class to a maximum of $10.00, depending on how many classes have passed at the time of the refund request, regardless of whether the student has attended classes. Where a materials fee has been paid, refunds will depend upon the amount of materials already used by the student during classes.

Please allow four weeks for the processing and mail delivery of College refund cheques. Refunds will be made only by College cheque.
